

## On the Street With FGA: Concerns With Inflation

FGA went to Nashville to ask: ***Do you think that the government has been doing anything to help curb inflation?*** The consensus is no. Here, Nashville locals and visitors tell FGA how inflation is affecting their everyday lives.

One said: "The price of eggs, milk, bread, avocados... everything is just a little bit more expensive." A Nashville musician said, "Nobody can actually afford a place to live anymore." And one visitor identified the problem clearly: **"It seems like Biden is messing things up if you ask me. Especially with gas prices."**

**To learn more about reforms that could fight inflation and cut unnecessary spending, visit [TheFGA.org](https://TheFGA.org).**
