

REPLICATING FLORIDA'S

RED PRINT

The background of the page is a detailed architectural floor plan in a light gray color. It shows various rooms, including a bathroom with multiple toilets and sinks, a kitchen area with a sink and stove, and a large open area that could be a living or dining room. There are also circular patterns and lines suggesting a circular structure or a specific architectural feature. The overall style is technical and precise.

Freedom Florida.

It's more than just a slogan.

Governor DeSantis has been a beacon of freedom in America; protecting our families, defending our free markets, and safeguarding our communities. The DeSantis playbook is a “red print” for how to run a state, and many of the policies the governor has implemented are specific reforms that FGA is advancing in other states as we aim to replicate Florida’s “red print” across the nation. Governor DeSantis’s leadership and the track record of the accomplishment of the Florida Legislature continue to be an inspiration for all Americans who value liberty, desire freedom, and love America.
