

MICHAEL WATSON
MISSISSIPPI SECRETARY OF STATE

“We Don’t Just Talk About It. We Get Things Done.” Election Integrity with Mississippi Secretary of State Michael Watson

As the chief elections officer for the state of Mississippi, Michael Watson is focused on delivering clean elections for Mississippi voters—and confidence in the election process. Turning that idea into action means funding for cybersecurity at the local level, post-election audits (an idea supported by Hillary Clinton and John Podesta prior to 2016), and even a full re-write of election codes to close the loopholes that allowed for ballot harvesting.

“When you get outside of this Jackson bubble, when you talk to Mississippians around this state, election integrity is one of the top issues they always bring up.”

—MICHAEL WATSON
